

Aditi Jain Agrawal

AI NATIVE PRODUCT DESIGNER

Builder · Designer · Facilitator · Coder

New Delhi, India · Remote aditi8394@gmail.com +9195456 07318 linkedin.com/in/aditi-jain-agrawal

Lead product designer with **10+ years** of experience. I treat design as **facilitation as much as craft**: framing the problem, drawing insight from the whole team, and driving to the best solution wherever it originates. Then I **build and ship it in code**, so the work lands as working product, not mockups.

EXPERIENCE

Lead Product Designer · Birdeye

Sep 2024 - Present · Remote

- Led the launch of **Myna**, Birdeye's healthcare AI agent, in **two months** with a team of three (me plus two designers): shipped 4 customer agents (Front Desk, Waitlist, Pre-Visit, and Tagging & Routing), 3 tools, 4 reports, 4 internal tools, and the conversation builder configuration.
- Drove Myna's first customer wins: a pediatric group at **\$100K over three years**, first location live with more in the pipeline, and a multi-location clinic across **three locations**.
- Coded the **agent builder component library**: 50+ components, 3 templates, and more.
- Built a **Claude Skill** on top of it that ships an entire working agent from a single prompt, and generated **5 agents in under 30 minutes**.
- Adapted the existing agent builder to support conversation building in **two weeks**.
- Self-taught coding with AI: set up a local dev environment, hand off directly in code where possible to cut implementation effort and improve accuracy, and am building a **handoff tool** to streamline design to development.
- Own design end-to-end for the **Listings** product: led a navigation and information architecture redesign, keyword ranking and appearance reporting, and AI recommendations, then shipped **4+ agents** across Listings and Reviews (Review Response, Review Generation, Listing Optimization, Listing Verifier, and Duplicate Suppression).

Cofounder & Lead Product Designer · Canonic

Oct 2020 - Present

Senior Product Designer · Jio Haptik

Jun 2019 - Sep 2020

Product Designer · Paytm

Mar 2019 - Jun 2019
